

RICOH GHS Label Printers

Print GHS compliant labels
on demand

Include colour logo and descriptive text in labelling

Fast, single-pass process

Ricoh offers printing of compliant GHS labels with outstanding quality and durability for the transportation of chemical and hazardous materials by sea.

Ricoh colour devices enable you to print on demand GHS Labels in colour, including company logo, primary display panel graphics and serialisations. Colour printing options eliminates the need for separate pre-printed stock of different pictograms and allows a single label to be printed.

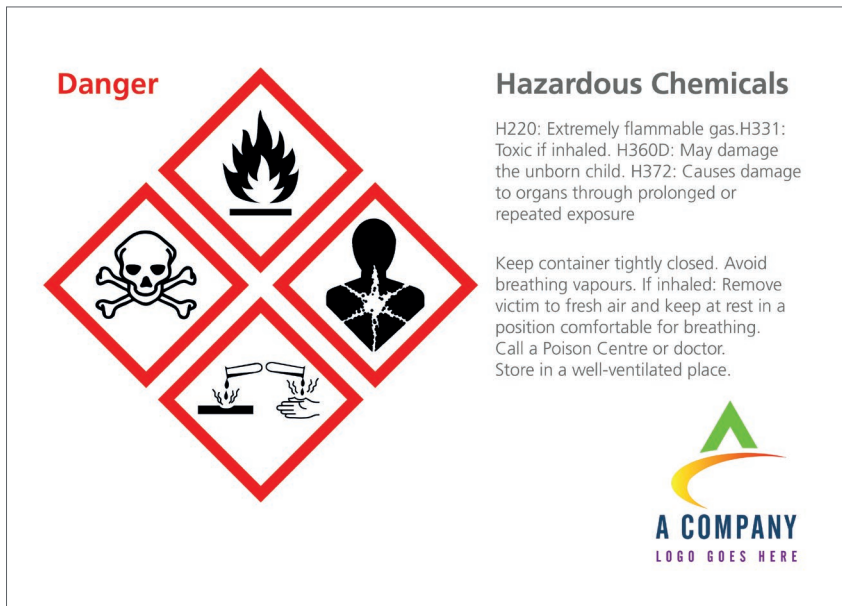

Ricoh's label printing devices can print onto BS-5609 Section 2 compliant label stock. In addition, these printing devices meet Section 3 compliance when paired with compliant label stock, including Herma.

Whether you're in a production line environment requiring fast first print, or a centralised printing environment demanding fast and seamless continuous print, Ricoh has a device to suit your needs.

Key features & benefits

- *BS-5609 compliant*
- *Fast first print*
- *Fast and seamless continuous print*
- *Versatility to print up to A3 size labels*
- *A range of support solutions*

BS-5609 compliant label printing

On demand colour printing eliminates the need for pre-printed stock and enables logos and descriptive text to be included in a GHS label.

Versatile performance

Ricoh devices print chemical resistant labels that will not smudge, run or fade from the impact of water and are durable over long shipping journeys. What is more, they can print labels of up to A3 size, offering the versatility to print in different fonts and languages - perfect for businesses aiming to make a global impact.

Reliable support

Ricoh offers a range of support solutions such as diagnostic tools and remote assistance that can help identify and resolve device issues if they arise, to help you maintain productivity. In addition to ensuring industry compliance, you can rely on Ricoh devices for outstanding productivity and performance, to keep your production environment operating efficiently.

BS-5609 compliant

GHS is the Globally Harmonised System of classification and labelling of hazardous substances. GHS labels are used to communicate information on the hazards of a specific material, and must meet the British Standard 5609 industry benchmark for certifying durability of labels during marine transit. Ricoh's label printing devices can print onto BS-5609 compliant label stock
